

LONG RANGE RADAR/LASER DETECTOR

designed & manufactured specifically for the UK & Europe

SIGNATURE SERIES SNOOPER SD715iS

**Independent*
Research Shows
that Radar detector
users have 24%
fewer accidents**
Statistics taken from research
conducted in the UK by MORI
**Drive Safely with
Snooper!**

The Signature Series SD715iS offers comprehensive cover of all radar and laser based Speed Traps, by utilising SNOOPER's unique EUROTECH 2000 Technology, increasing your awareness of both your speed and your surroundings.

The Snooper SD715iS has been designed to help you drive within the confines of today's Speed Limits. However it will not only help keep your licence safe - A recent survey undertaken in the UK by MORI concluded that Radar Detector users have 24% fewer accidents and drive a further 40942 miles between accidents.

This compact detector is powered from the vehicle's cigarette lighter and can be mounted either on the dashboard, the sunvisor or on the windscreen with the suction cup bracket provided.
