## The 2 in 1 Speed Camera Detector and Sat Nav system with 4" widescreen

Syrius is simply the most stylish portable sat nav system available. But Syrius not only looks good, it delivers a performance to match. Unlike most other Sat Nav systems you can update it's speed camera database 24hrs a day 365 days a year. Plus Syrius uses our unique Enigma database which is also updated daily, so the second a new camera is added you can download it. Syrius gets you effortlessly from A to B whilst ensuring that you get there with your license intact.

Rated Best Quality Sat Nav by MSN Cars and given 4 1/2 stars by Evo. Syrius is THE 2 in 1 Sat Nav and Speed Camera Detection System.
